

Welcome

Business is a popular course that is firmly grounded in the reality of the dynamic business environment. Students will learn subject content alongside real business events such as the COVID-19, global recession, the BP Deepwater Horizon oil spill and the leadership of great entrepreneurs such as Steve Job and Sir Richard Branson to bring theory to life. Students achieve good results in this department and are taught in dedicated rooms with computers to use regularly. The subject explores the challenges and issues of starting, running and expanding a business and examines the different functional areas including Human Resources, Finance, Marketing and Operations.

You have activities to complete from now on and over the summer. These tasks should hopefully get you thinking about many Business challenges that are going on in the UK right now. As you think about the questions, always think about the reasons that justify an opinion, a Business model or a Business strategy.

1. Put the brands in the correct order from most valuable to least in the table below.

Business is all around you every day, it isn't hard to see how it has affected you and will affect your future. Take BREXIT for example, do you view that as a positive or a negative? Spend some time to find them out and create a document of their definitions, examples and formulas (where needed). Use www.tutor2u.com to help you.
